quality of life and human capital development in conditions of global instability**

11.30 – 13.00 Session II

Regional and local development in conditions of economic turbulence

13.00 – 14.30 Session III

Financing and development of enterprises and institutions in the era of COVID-19

14.30 – 15.00

Oxford discussion - conference summary

15:00 – 15.30

International scientific cooperation - possibilities and directions

Problems for discussion:

1. National and international support programs for international cooperation
2. Good practices of international scientific cooperation (case of Poland, Ukraine)
3. Expectations and needs regarding the development of international cooperation (Poland, Ukraine perspective)

The panel is conducted in the form of a moderated discussion related to the exchange of views on the need to develop international cooperation, presentation of good practices, examples of projects and other experiences necessary from the perspective of the development of the institution (building a scientific category - institutional perspective) and individual development (personal perspective)

15.30 Closing
