## Foreign language study

As part of their studies, our students participate in **Polish language classes**. These courses are designed to support everyday communication, facilitate integration into the local environment, and enhance their overall study experience in Poland.

## Internships and practical training

Student internships are an important part of the course. Students of undergraduate and long-cycle master's programmes complete **960 hours of internships** (24 weeks), gaining professional experience. If you already work in a profession related to your field of study, you may have your internship credited based on your employment. During your studies, you also have the opportunity to take part in a paid placement. Internship programmes are prepared by our partner employers, who tailor their requirements to specific positions, making it easier to take your first professional steps.

## Study completion requirements

You work in a team on a diploma project that addresses a practical or theoretical problem related to your field of study. By researching the literature and conducting your own analyses, you develop an original proposal for solving the problem. Everything you learn during your studies enables you to create a professional project based on real data and actions. To obtain your bachelor's degree, you must defend this project before a committee. You are the one who defines the direction of your project!

### How to become a WSB Merito University student

You can enroll in a **first degree (e.g. Bachelor's or Engineer's) program** if you have successfully completed your secondary education and have a secondary school-leaving certificate.
