

Information Technology - Outsourcing Cloud Solutions

- Program - studia II stopnia

full-time IN OCTOBER Master's English

What will you learn if you choose Information Technology

Master the Cloud: Lead the Future of Digital Transformation

Are you ready to harness the power of cloud computing and shape the future of global IT infrastructure? Merito University's **Outsourcing Cloud Solutions** program in Poznań equips you with cutting-edge skills to design, manage, and optimize cloud-based systems for businesses worldwide. Dive into advanced topics like hybrid cloud architectures, SaaS/IaaS/PaaS models, and cost-efficient resource allocation. You'll learn to streamline IT operations through outsourcing strategies, enhance data security in distributed environments, and leverage automation tools to drive scalability. Collaborate with industry partners on real-world projects, gaining hands-on experience with platforms like AWS, Azure, or Google Cloud while studying in Poland's thriving tech hub.

Launch a Global Career in Cloud Innovation

Graduates emerge as versatile cloud architects, IT outsourcing managers, or cloud solutions consultants ready to tackle challenges in multinational corporations, tech startups, or digital transformation agencies. You'll master DevOps practices, disaster recovery planning, and compliance frameworks like GDPR, positioning yourself as a strategic asset in the \$800+ billion cloud market. While the full English IT program is in development, this specialization offers globally relevant expertise with courses in English, such as *Cloud Infrastructure Design* and *Enterprise Digital Transformation*. Join a network of innovators and become the tech leader businesses need in the age of remote work and AI-driven systems!

Key program features

- Distributed database administration
- Cloud computing
- Data cloud administration
- Service network applications
- IT service management
- Artificial intelligence in the cloud
