

IT Project Manager

MASTER'S DEGREE - SPECIALITY

Form: Full-time

Study form: Traditional (on-site)

Features: Master's degree • From October • English • 4 semesters

City: Toruń

What will you learn?

- You will learn advanced IT project management techniques, enabling you to effectively plan, execute, and close technology projects.
- You will learn to apply adaptive methodologies such as Agile and Scrum, allowing you to respond quickly to changing project requirements.
- You will gain leadership and communication skills, enabling you to manage teams effectively and build strong client relationships.
- You will learn tools for IT service management and remote work, preparing you to work effectively in a hybrid environment.
- You will learn to analyze and conduct IT audits, strengthening your competence in project quality control.
- You will expand your knowledge of User Experience in IT projects, enabling you to create user-centered solutions.

Work opportunities

- You will work in consulting and advisory firms, supporting clients in the implementation of complex IT projects.
- You will work in IT agencies, managing development teams and implementing modern solutions.
- You will work in corporations from the financial, telecommunications, and technology sectors, carrying out large-scale IT projects.
- You will work in manufacturing and service enterprises, developing IT infrastructure and digitalization processes.
- You will work in public institutions, implementing IT projects for government administration needs.
- You will develop your career in start-ups, managing technological projects in a dynamic environment.

Study program

Practical studies

We teach in a way that best prepares you for real-world challenges you will face in your professional career.

- Group projects – real business problems.

- Simulations – decision-making in market conditions.
- Internships and placements – experience in companies.
- Lectures with practitioners – market experts.
- Modern tools – current technologies.
- Case studies – analysis of real cases.

Selected major-specific courses

- Knowledge Management in the Enterprise
- Computer-Aided Project Management
- Agile Project Management Methodologies
- Software Commercialization and Distribution
- Software Engineering in Business
- BI Methods and Tools
- Computer Network Architecture
- Computer Network Technologies
- Elements of Digital Technology
- Programmable Digital Systems

Selected specialization courses

- IT Service Management
- SCRUM in IT Projects
- User Experience in IT Projects
- Remote Work Tools
- IT Audit
- Leadership in Projects

Foreign language study

- During your studies, you will take one core course in English. In the Management program, this course is Leadership.

- In the 4th semester, you will be required to complete a course in English, tailored to your chosen specialization.
- Additionally, you can choose two more courses in this language – one lecture and one practical class.
- This is a great opportunity to develop your language skills and gain knowledge in an international context.

The program is for those who

- have leadership skills and would like to become managers in the future,
- are interested in the mechanisms of management psychology,
- are good at organizing and planning,
- have an analytical mind and do well in the sciences.

Internships and practical training

Internships are an important part of the study program. Master's students complete **480 hours of internships throughout their studies**, gaining valuable work experience. If you are employed in a profession relevant to your field of study, you may have your internship credited based on your employment. During your studies, you also have the opportunity for a paid internship. Internship programs are prepared by our partner employers, adapting requirements to specific positions, which makes starting your professional career easier.

How to become a WSB Merito University student

To be eligible for a **second degree (Master's) program**, you must have completed a prior higher education program concluded with the award of a first degree (Bachelor's or equivalent).
