WSB MERITO UNIVERSITY WARSAW

Project Management

BACHELOR'S DEGREE - SPECIALITY

Form: Full-time

Study form: Hybrid • Traditional (on-site)

Features: Bachelor's degree • From October • English • 6 semesters

City: Warszawa

What will you learn?

- You will learn **how to plan and implement projects**, which will help you achieve business goals and measure their results.
- You will master the ability to **allocate resources**, time, and people effectively for project execution.
- You will become familiar with modern **project management tools**, which you will apply in practice when carrying out tasks.
- You will gain knowledge of **schedule management** and change management in projects, which will increase your flexibility.
- You will learn how to build and lead **project teams**, which will improve the quality of collaboration within the team.
- You will become familiar with **agile management techniques**, which will allow you to respond to changing business conditions.

Work opportunities

- You can become a **project specialist**, responsible for coordinating and implementing project tasks.
- As a **scrum master**, you will support teams in effectively implementing agile methods.
- You will become a **project manager**, planning and overseeing activities in international or local companies.
- You can take on the role of a **product owner**, managing product development and ensuring it meets customer expectations.
- You will work as a **project team leader**, taking care of the team’s motivation and effectiveness.
- As an **employee of an international corporation**, you will participate in the implementation of large-scale projects.

- 14 hours delivered in an e-learning format

Languages to choose from: English, German, Spanish.

Internships and practical training

Student internships are an important part of the study program. Students of bachelor's and long-cycle master's studies complete 960 hours of internships (24 weeks), gaining professional experience. If you work in a profession related to your field of study, you can have your internship credited based on your employment. During your studies, you also have the opportunity to take a paid internship. Internship programs are designed by cooperating employers, tailoring requirements to specific positions, which helps you take your first professional steps.

Study completion requirements

You create a major project that addresses a practical or theoretical problem related to your field of study. By studying literature and conducting your own analyses, you work on an original problem-solving proposal. Everything you learn during your studies enables you to create a professional project based on real data and actions. To earn your bachelor’s degree, you must defend this project before a committee. You set the direction of your own project!
