Dean's Office

From October 1, 2026, you can submit an application for a certificate confirming student status in paper form to the Dean's Office.

Student card

From this academic year, instead of the traditional plastic ID card, students have access to the mLegitymacja – a free online document available in the mObywatel smartphone app.

If students still wish to obtain a traditional (plastic) ID card, they can order one after beginning their studies. Information on how to do this and how to pay the fee for the plastic ID card (PLN 22) will be provided by the Dean's Office after the start of their studies.

Detailed instructions on how to obtain the mLegitymacja can be found on the MeritoGO portal.

Enrollment for groups

There can be several hundred students in the first year of a given program. Conducting lectures or tutorials in such a large group would be inefficient, or even impossible. Therefore, we divide students into smaller administrative groups.

Each student will be assigned to a group automatically by the Dean's Office. Information about your group can be found on the MeritoGO portal.

Starter packs/ supplementary courses for second degree students

Starter packs are materials that provide a collection of basic knowledge in a particular field. They are extremely necessary and useful for those who have completed another field of study at the bachelor's level. With the help of these materials, you can start your second-degree studies in a different field from the first-degree studies you completed.

The starter packs were prepared in the form of multimedia courses in cooperation with the managers of the majors.

Schedule of class sessions

On the MeritoGO portal, in the "Studies" tab, you will find the meeting dates for the entire academic year.

IMPORTANT

You must be assigned to a group to see your schedule. **Details are available on the MeritoGO platform.**

The schedule will be available two days before the scheduled class. Each class' schedule will include information about where and how the classes are conducted (e.g., Moodle-R, Moodle-N, Microsoft Office 365, Microsoft Teams, VDI).

Center for the Insured DOW NFZ in Wrocław, Dawida 2 street, room 121, phone: +48 71 7979 133 and +48 71 7979 131.

Remember! Lack of insurance may result in the withdrawal of a temporary residence permit, which means you have to finish your stay in Poland. The refusal to leave the country, despite the lack of a residence permit leads to the obligation of the visitor to return to the home country, combined with a re-entry ban for at least 6 months.

Important information about insurance for international students!

Health insurance or a confirmation of coverage of treatment costs by the insurer is required not only when entering and applying for a temporary residence permit, but also during the entire stay in Poland.

If you do not have the citizenship of an EU/ EFTA Member State, or the right to legally reside in the territory of an EU / EFTA country other than the Republic of Poland, or are not subject to compulsory health insurance in the territory of the Republic of Poland or in another EU / EFTA Member State (e.g. compulsory insurance for an employed person, the right to register as a family member of the insured person, etc.) then you apply for the insurance on your own, eg in the National Health Fund (NFZ). To apply for the NFZ insurance you need to download a certificate of a student status from the Student Service (Dziekanat).
