Logistics - Master's degree	38-41

Why is it worth studying in Poland?

It is a beautiful country in the heart of Europe. Poland lies in the centre of Europe where the West meets the East. Our country is inhabited by as many as 38.5 million people, which makes us the sixth largest country in the European Union in terms of population. We border Germany, the Czech Republic, Slovakia, Ukraine, Belarus, Russia and Lithuania. In addition, we can boast of beautiful landscapes: the vast Baltic Sea, the majestic Tatra Mountains, the Bieszczady Mountains with their wildlife and the Białowieża Forest, which is included in the prestigious UNESCO list.

Poles are hospitable

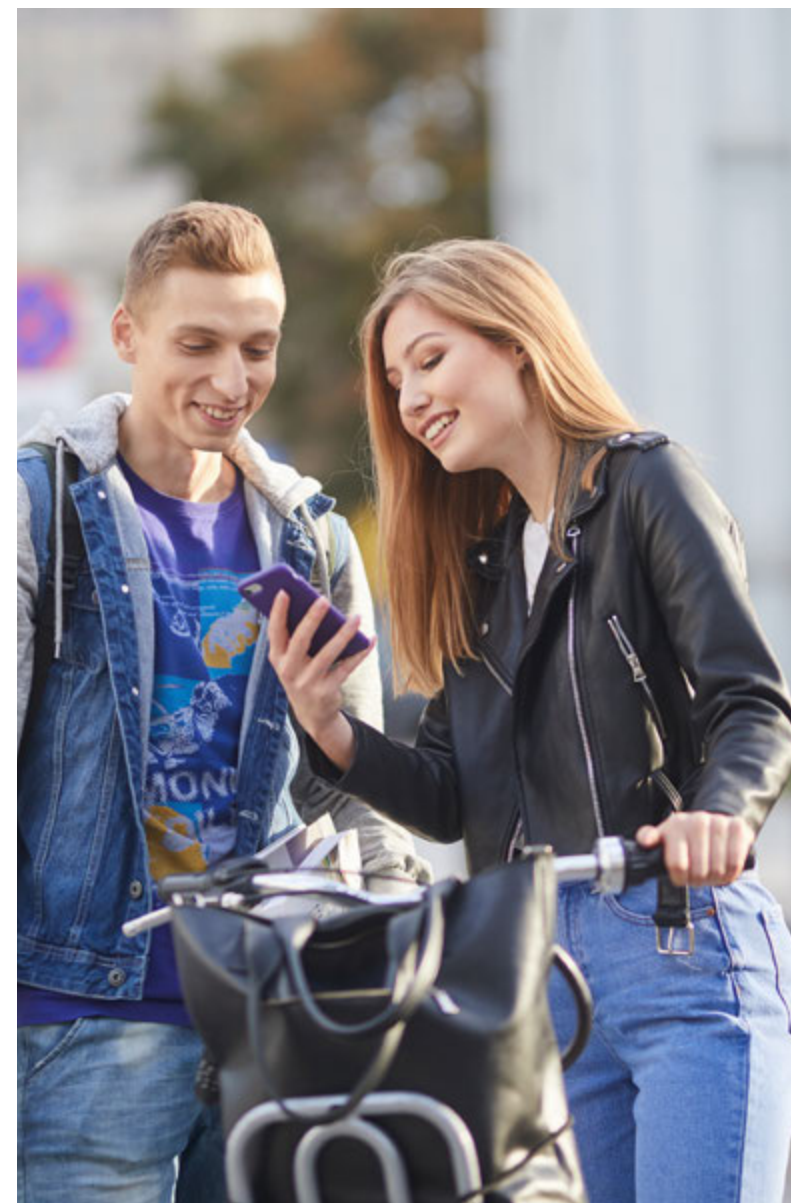

This is not a myth, Poles are really hospitable. Don't be surprised if your new colleague offers to show you the best attractions in town and then invites you to dinner with friends or family. It is worth pointing out that lunch usually consists of two dishes, which are often followed by a dessert. You'll soon see that your new friends will do their best to make you feel at home here. Don't be afraid to ask for help when you need it. Polish people speak English very well as shown by the largest international proficiency ranking carried out by the EF Proficiency Index (EF EPI) and published in 2020.* **Poland is ranked 16th out of 100 countries around the world whose inhabitants are fluent in English.**

Don't be scared, it's safe with us

Do you know that out of 163 countries around the world, Poland is 29th in the ranking evaluating security, peace and stability? Such data stems from the analysis of the independent Institute of Economics and Peace, conducted in 2019. Interestingly, Poland's position has improved by three places compared to 2018. Our country is therefore a safer place than the United Kingdom, France, Italy, Spain or Greece.

www.ef.pl/eipi/regions/europe/poland

More information about Poland can be found on the website:
www.poland.travel

You can count on student discounts

In Poland, we greatly appreciate the fact that someone wants to develop and study. **In our country, students can expect a 50% discount on public transport, i.e. trams and buses.** It should also be pointed out that such a large discount also applies to trains travelling all over Poland. This allows you to sightsee and travel much cheaper while studying. Remember that as a student you also spend less on tickets to the cinema or theatre. Many pubs and restaurants also offer special prices for students. If you want to take advantage of the discounts you are entitled to, remember to always have your student card with you. We will issue it to you after you have submitted a set of admissions documents, at the beginning of the academic year.

The cost of living is not high

The cost of living depends on your needs and lifestyle, but compared to other European countries such as France or Germany, you will simply find it easier to live in Poland. The prices of services and products vary depending on which city you live in. The average cost of living for a foreign student in Wrocław can be between €350 and €550.

More information can be found by clicking here:
www.wsb.pl/english/study-in-poland/cost-of-living-in-poland

It is not difficult to get a job

You will soon move out of your parents' house and start studying. Taking up a job can help you adapt to your new realities. Finding a job in Poland, where the unemployment rate is low at 6.2% (October 2020), is not very difficult. Remember that if you come from an EU and EEA country, you do not have to apply for a work permit. If you come from a country outside the EU, you will need a student visa or a temporary work permit.

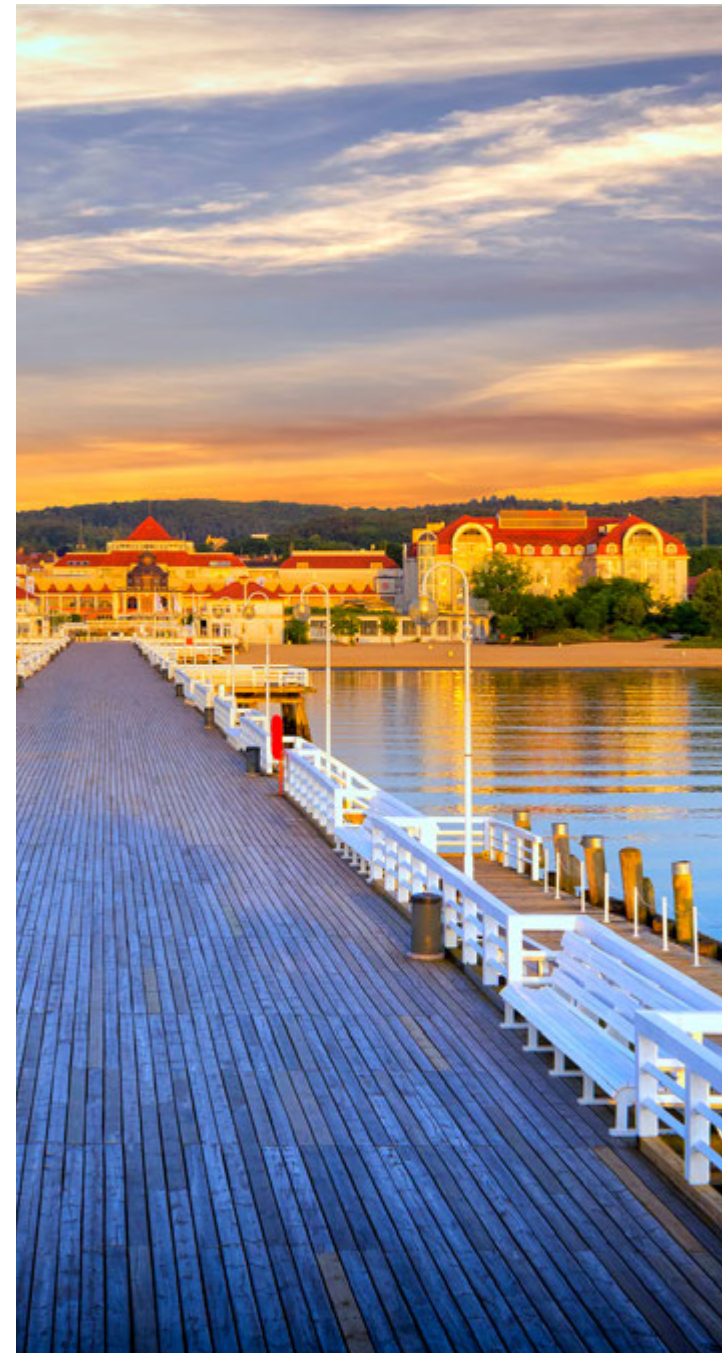

More information about Poland can be found on the website:
www.udsc.gov.pl/en/cudzoziemcy/obywatele-panstw-trzecich/chce-pracowac-w-polsce

More and more people from abroad are studying here

Poland is a country more frequently chosen by young people from abroad. They decide to study here because of many reasons, which have been described above.* In the academic year 2019/20 - the last one before the pandemic hit - Polish universities were chosen by almost 83 thousand students from abroad. This is an impressive result, taking into consideration that in 2005 there were only 8 thousand of them. Whereas in 2018, 78 000 foreign students from 174 countries went to study in Poland.

*source: Central Statistical Office, 'Higher education and its finances in 2019' report

Poland in numbers

Poland is not only famous for its historical cities: Kraków, Warsaw, Gdańsk, Wrocław, but also for its diversified nature. You will find here wild forests, lakes, beaches, rivers, mountains and the Baltic sea.

Area	_____	312.685 km ²
Population	_____	38.5 million

Wrocław - the ideal student city for you

A city bustling with student life

Wrocław is one of the most important academic centres in Poland. It is located in Lower Silesia, where nearly 118 thousand students study. Year by year, Wrocław is attracting more and more young people from abroad, including Ukraine, Turkey, India, Ghana, Angola and Nigeria. The local universities entice them not only with their high level of education but also with a prospect of a crazy student life in a modern city full of music and art. As expected, students have a great deal of fun here every year during the annual students' event organized by almost all universities.

Excellent career prospects

By choosing to study in Wrocław, many young people think about staying here after they graduate. No wonder - the city is developing at a fast pace, especially in the IT sector, and therefore is sometimes called the Polish Silicon Valley. In 2019, 110 large IT centres employed as many as 36 000 people. Thanks to the modern information technology industry in Wrocław, employment and the level of salaries of employees is systematically increasing. The most important corporations include: Google, IMB or HP.

The ideal place to live

The capital of Lower Silesia is a place where you not only study well but also live. In 2019 Wrocław was included in the Quality of Living 2019 ranking - the quality of life survey carried out by Mercer. Wrocław took 2nd place among Polish cities, just after Warsaw, and was ranked 100th among 231 cities in the world.

Comfortable and trouble-free transport

You can reach Wrocław from your place of residence by the safest means of transport, that is by plane. The airport is only 10 km from the city centre. Moving around Wrocław will not be a problem for you. Apart from hiking, you can choose from: modern city buses and trams, ecological Wrocław City Bike or electric scooters

Wrocław is a meeting place. It offers a unique atmosphere fostering international and intercultural projects and events. Brave Festival, Guinness Guitar Record, International Festival of Street Artists „BuskerBus” are one of them.

You can find more information about Wrocław on the following websites:

www.visitwroclaw.eu/en

www.wroclaw.pl/en

www.live-in-wroclaw.com

The abundance of cultures

For decades Wrocław has been home to many nationalities. It is possible that such experiences have resulted in its openness. The symbol of the city's diversity and its religious tolerance is the District of Four Denominations, located near the Market Square. It fully reflects the character of Wrocław, where people of many nationalities, religions and cultures live in the past and today. Initiatives such as the Multicultural Wrocław, Wrocław Migrant or the Wrocław Centre for Social Development ensure that every inhabitant, regardless of their origin, feels good here.

Unique atmosphere

It is not without reason that Wrocław is referred to as the Polish Venice or Venice of the North - there are many islands, bridges and footbridges here. The city lies on the Oder River, on 12 islands and boasts about over 100 bridges. When strolling over through one of them, it is worth looking at the surface of the river, which reflects picturesque green landscapes, or beautiful tenement houses remembering a distant history. Besides, while wandering around Wrocław, keep your eyes wide open so as not to miss the dwarves! One of them lives in WSB, his name is Fuger and you will meet him at the entrance to building A.

Wrocław never falls asleep. Especially on so-called „student Thursdays” students can benefit from discounts in bars. The Rynek and Pasaż Niepolda are the two most popular party venues. You will find several dozen clubs, pubs and restaurants here.

The capital of entertainment

This is a city full of entertainment and it is impossible to get bored here. **During the daytime, cinemas, theatres, museums, the Wrocław Opera House, the National Forum of Music, the ZOO, the African Centre**, as well as a viewing terrace in the Sky Tower, the tallest building in Poland, from where you can admire a breath-taking panorama of the city. When walking, be sure to see the historic part of Wrocław, Ostrów Tumski. We guarantee that you will fall in love with this atmospheric place. In spring, however, be sure to visit the Botanical Garden and the Japanese Garden. Do not forget to see the Wrocław Multimedia Fountain, the largest fountain in Poland. At night, during the summer season, spectacular shows are held here to the rhythm of music.

Meet us! Studying at WSB is an unforgettable adventure

WSB Universities are the largest group of private universities in Poland. We are based in 10 largest cities in Poland, such as: Gdańsk, Gdynia, Szczecin, Bydgoszcz, Toruń, Poznań, Warsaw, Wrocław, Opole and Chorzów.

We have been teaching for many years demonstrating that it is possible to combine studying with work and private life, i.e. we follow the idea of work-life balance. Our lecturers are experts in their fields. They inspire passion and energy, willing to share their experience and knowledge, and answer students' questions. They are open and committed to their work. This makes studying at WSB an unforgettable adventure.

Do you know that WSB in Wrocław has existed for over 20 years and continues to enjoy the trust of young people who choose to study after secondary school? **So far, 400 000 students and graduates have trusted WSB Universities.** This is confirmed by the official rankings for non-public higher education institutions in Poland.

In 2021, in the national ranking of the "Perspektywy" monthly, we were ranked among the top 5 best non-public higher education institutions in Lower Silesia. Moreover, according to the information published by the Ministry of Science and Higher Education on the results of enrolment in the academic year 2021/2022, WSB University in Wrocław is among the top universities in the ranking of the most frequently chosen ones, for bachelor's and master's degree programmes, both full-time and part-time.

Why is it worth studying with us?

- The diploma of our university is known and recognized in the European Union Member States, as well as valued by employers in Poland.
- We prepare study programmes so that you can easily combine your studies with your professional work and private life. We support the idea of work-life balance.
- We believe that practical skills are important and that you should gain first experience while studying. In WSB you learn by analysing case studies, taking part in workshops, exercises, discussions, simulations and other interactive activities.
- You will meet interesting and original university lecturers - businessmen and practitioners who run their own businesses or are employed by companies known in the region on a daily basis. Our lecturers are people with passion and great knowledge who are happy to share it with you. They will teach you what they really consider useful in the industry where you see your future.

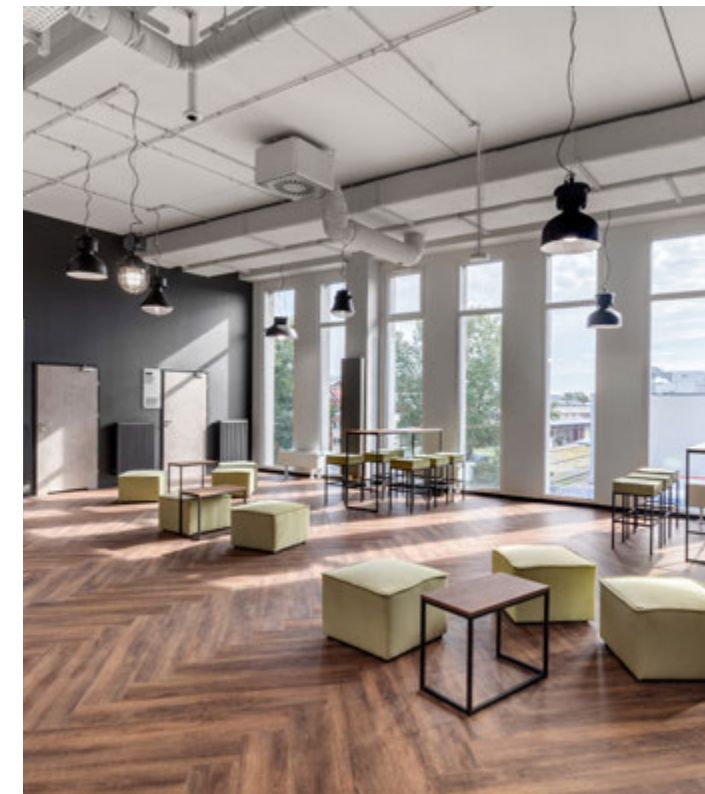

- We care about the comfort of our students, which means that you learn in comfortable rooms, located in a modern campus, and you have constant access to important information thanks to the Extranet system, which fulfils the role of an electronic student record book and an information platform.
- Every year we prepare a guide for international students, where you will find a handful of information on the most important formalities. We are also always happy to help!

Our campus - study in comfortable conditions

We understand the importance of your choice, and we hope that the information you find on the following pages will make it much easier for you. In the WSB in Wrocław we create conditions for studying, making friends, meeting people who can become mentors and authority. Our lecturers treat you as a partner because it is the only way to inspire you with passion. We also make sure that you simply study well and comfortably with us. This means that you learn in a comfortable campus using modern technology. We have adapted all facilities on the campus to the needs of people with disabilities.

Our campus consists of 5 modern buildings (the latest one was opened in autumn 2020), located in Fabryczna Street, near Wrocław Industrial Park, Wrocław Business Park and Wrocław Technology Park. More than 25.000 people come to this part of the city to work and study. You will not find another place like that in Wrocław, the permeation of many initiatives and activities.

The newest building on campus is at the same time one of the most modern academic buildings among universities in Lower Silesia. **On the area of 8300 m² there are 58 training rooms which can accommodate over 2000 students, as well as 12 laboratories and 4 lecture rooms.** It does not lack any facilities such as a restaurant, coffee kiosk, copying facilities, relaxation zones and a drinking water spring. The area around the building has been developed with a greenery and benches so that you can relax in between classes in a pleasant environment.

You will find detailed information about the campus on the website: www.wsb.pl/english/wroclaw/get-to-know-wsb/perfect-study-environment

Moreover, at university:

- you receive a free email account and can use, among others, Microsoft Office 365 - the whole Office package and cloud services,
- you participate in lectures and exercises that take place in comfortable and well equipped rooms,
- you can borrow books and magazines or use them on site in the reading room,
- you will make a copy of the notes at the photocopying facilities on the university premises,
- you will connect to a Wi-Fi network,
- you will use computer and specialist laboratories, e.g. RFID, CISCO, SAP Next-Gen, MAC, Lab Powered by Nokia,
- you can buy a sandwich or lunch in between classes at one of the catering facilities on the university campus,
- you will rest in specially arranged student zones and on warmer days - in the green part of our campus.

If you are going to get to the university by car, you do not have to worry about the availability of parking spaces - we have prepared as many as 100 of them. In addition, the building is accessible from the renovated Fabryczna Street, which facilitates access by car and public transport. What is more, due to the city's investment and the construction of a bus and tram route, in the near future (2023) it will take you less than 20 minutes to get to the university from the city centre.

The library and the reading room

Our library is a quiet and peaceful place. It is contrasted with noisy corridors, crowded halls and it is a pretty good alternative for those looking for a place to focus and study. **During your studies at the WSB you will gain access to almost 100.000 books and nearly 80 titles of trade journals, as well as many databases containing, among others, archives of tens of thousands of renowned scientific journals from around the world.**

Moreover, our students also have access to electronic resources of books and magazines in English. They are available on such platforms as: Emerald Insight, EBSCO, ELSEVIER, ISI WEB OF KNOWLEDGE, SCOPUS, WILEY, SCIENCE or NATURE.

Just log in here:
www.login.han.wsb.wroclaw.pl/login/login.html

You can use the library's resources 7 days a week in a time-saving way: you can order books through the electronic booking system and return them (thanks to a special drop-off box located in front of the entrance to the library) even after opening hours. In addition to a rich collection of books, you will also have access to the **e-book collection - nearly 1300 titles and a database.**

More information you can find on the website:
www.wsb.pl/english/wroclaw/student-zone/library

Live comfortably near the university

Wrocław is a large academic centre which offers students a lot of accommodation options. The most popular option used to be dormitories because of their affordable price. However, living in a dorm has its downsides. All-night events did not give a slightest chance to sleep or study in peace, and the price of accommodation rose every year. Today, more and more young people decide to rent a flat together with friends from the university or to rent a one-room flat for their own use. No matter which option appeals to you most, below you will find links to websites that will help you find a comfortable place for yourself.

Tip: Look for a place to live close to the university and the workplace to save time and money on commuting and do not risk being late for classes in the event of city traffic.

Where to look for accommodation?

You will find information in English on the following websites. The other pages contain information in Polish and you can ask your university colleague for help.

- OLX: www.olx.pl/nieruchomosci/mieszkania/wynajem/wroclaw
- Otodom: www.otodom.pl/wynajem/mieszkanie/wroclaw
- Gratka: www.gratka.pl/nieruchomosci/wroclaw/wynajem
- Gumtree: www.gumtree.pl
- JustLanded: www.justlanded.com
- OK Roommate: www.okroommate.com
- Ada: www.ada.place/wszystkie/nieruchomosci/wroclaw

You can also opt for a private dorm in the centre of Wrocław or near the WSB:

- www.las.com.pl/en
- www.studentdepot.pl/en/dormitory-wroclaw

You can also rent a flat or a room through an agency:

- Accord: www.accord-wroclaw.pl
- Spire: www.iglica.pl
- MBA: www.myboutiqueapart.com
- Sim Property: www.simproperty.com/en

Friendly e-university

What does our university look like online? It is a friendly and well-designed virtual space where you will move around intuitively and it will take a few moments to find the information you need. Whether you are just sitting comfortably on the couch in your room or going to the cinema with your friends, you can always be in touch with us. This is all thanks to our in-house virtual student service system.

Extranet

Extranet - is an internal system which regardless of where you are (on the couch at home or in the café), will allow you to check:

- the schedule and timetable of classes,
- grades from the entire study period,
- consultation hours with lecturers and university authorities on duty,
- the rules and regulations that apply to you,
- information on payments for studies,
- timetable for the session,
- WSB library catalogue.

Thanks to the Extranet you will also have access to other documents and applications you need. We will inform you about how to log in when you become our student.

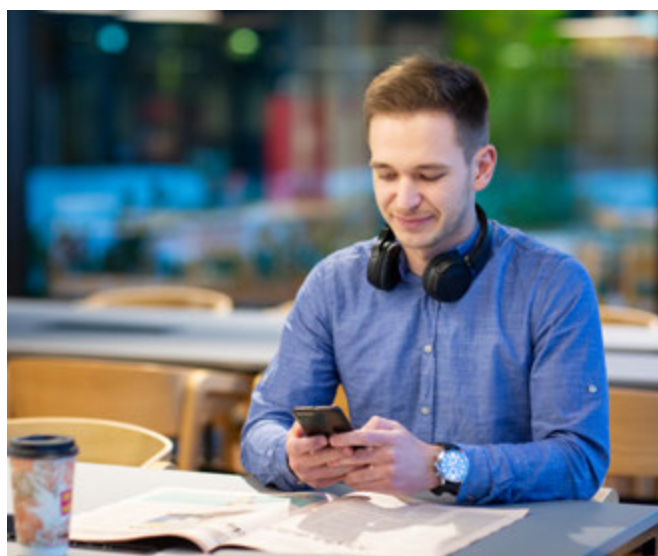

Get to know the VDI

VDI (Virtual Desktop Infrastructure) is a solution that will enable you to use the full resources of our computer laboratories remotely. This means that you can participate in online lab activities and learn to work in advanced ICT environments. You also use specialist software, according to your chosen field of study.

Electronic student's record book and online assessments

With the electronic student's record book you can check your entries and ratings with a few clicks. You will not have to worry about forgetting your student's record book for the exam because you simply do not need it.

Moodle

This is an e-learning platform that you have access to via the Extranet. Thanks to it you are always in touch with the lecturers and have access to:

- syllabuses for classes,
- e-learning activities,
- excerpts from exercises and lectures,
- sample tests for self-study,
- multimedia presentations,
- websites of interest,
- films and other multimedia materials.

Thanks to the Moodle platform, you will also be able to send your projects and homework to the lecturers, as well as solve the tests necessary to get a final pass in a given course. You can access the materials via your Extranet account.

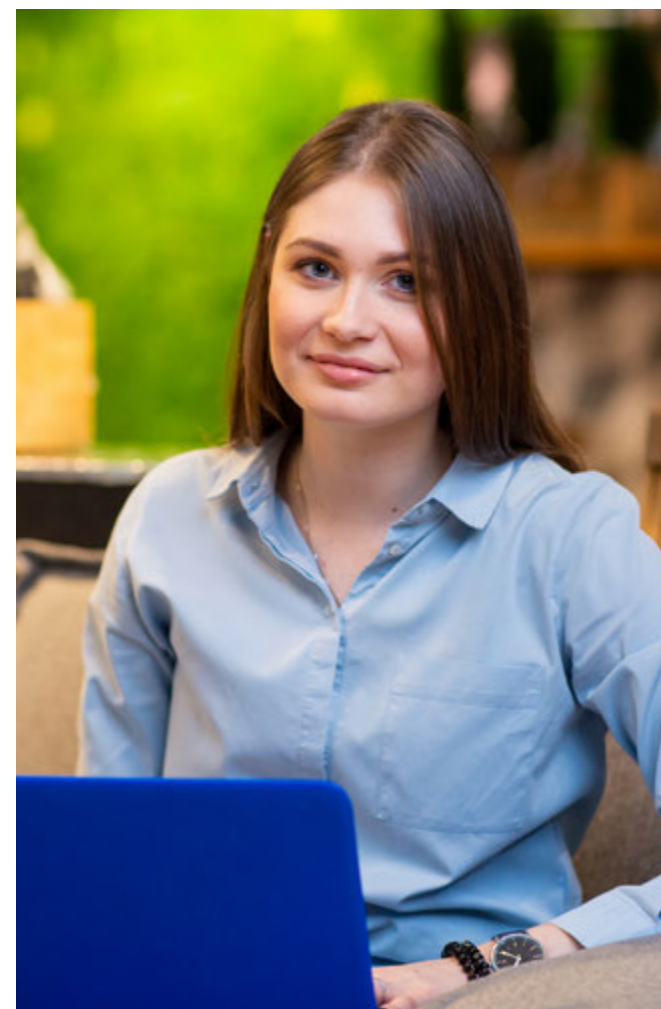

MS Office 365 - free package for our students

Our students have the opportunity to download the latest version of the Office 2016 office suite free of charge as part of the Microsoft 365 A3 subscription for students. Using MS Office 365, you will be able to take advantage of solutions such as:

- the latest versions of the applications: Word, Excel, PowerPoint, OneNote, Outlook, Skype for business, Publisher and Access,
- possibility to install the Office package on up to 5 devices (PC or Mac computers, mobile devices with iOS, Android or Windows),
- 1 TB of personal space on a virtual OneDrive.

MS TEAMS

MS Teams is one of the best-rated remote communication platforms in the world. It enables students to keep in touch with the lecturer on an ongoing basis, to hold discussions and ask questions, and to work in subgroups on projects with colleagues.

We are flexible - hybrid learning if necessary

Usually it is our lecturers who evaluate the students, but this time in the spring of 2020, during a pandemic, we had to pass the most important exam. We had to face an extremely difficult challenge and adapt very quickly to the new conditions. Almost immediately, we switched to remote learning so that our students could continue their studies, take part in classes and undertake viva voce examinations.

After several months of hard work it turned out that we passed the remote learning exam. **As many as 82% of the university students were very happy and satisfied with the actions we took during the current coronavirus pandemic.** More information can be found here: www.wsb.pl/english/successful-in-online-education.

Such evaluation has motivated us to make even greater efforts. In preparing for the new academic year 2020/2021, we were primarily concerned about the safety of students and lecturers, and the implementation of classes according to the programme. We planned to conduct classes in a mixed model*, also called hybrid. This means that some of the classes were taught in the traditional mode, i.e. within the walls of the university, and some were conducted in a remote mode, i.e. online, most often through the Microsoft Teams platform. When the pandemic intensified, the government decided that we should once again smoothly switch to online teaching.

You can read more about how we prepared for the new academic year here: www.wsb.pl/english/wroclaw/we-are-ready-for-the-new-academic-year

WSB is not just about buildings, it is about people!

The accession of Poland to the European Union has opened up an extremely wide and attractive university market. Young people more and more often decide to study abroad and are willing to choose our university. The number of foreign students in English language courses at WSB university is increasing every year. One of the most important aspects of studying in such a course involves getting to know people from all over the world. Due to the large number of foreign students from different countries and continents, much greater multi-culture prevails in the English-speaking faculties, which provides an opportunity to meet people from different ethnic groups and nationalities. In the face of increasing globalisation, employers are looking for people with experience in functioning in a multicultural environment that they can use in their work.

Regina Bogucka-Lebiedź, PhD
Admission Office for Foreigners and the English Language Studies

Studying in the life of every young person constitutes a very important period, often decisive when it comes to taking up a job and developing a career. You can look for many ways to best manage your career, strengthen your position and adapt to the expectations of the job market. There is no doubt that it is worth betting on international experience. In WSB we create a lot of development opportunities for students under the Erasmus+ Programme. They can study at foreign universities, do internships in companies or take part in international events. We encourage you to discover more foreign projects that are waiting for students.

Jarosław Tomaszewski
Director of the Centre for International Cooperation

All classes at the university are interesting and I willingly participate in them because of the lecturers who share their practical knowledge. I know that I have made the right decision when choosing this university. My studies will help me fulfil my dream, namely to run my own company. Apart from studying I also have time for other activities. Thanks to WSB I have found an extra job - together with a colleague we run workshops for high school students. It is a great alternative for those who want to meet new people.

Nikola Demkowicz
WSB student

Make yourself at home meaning what support you can get from university

We understand how much determination and courage it takes to decide to go abroad and study in Poland. We hope that you will choose WSB, and when that happens, you can be sure that you can count on us. We will help you to take your first steps in your new environment, to find yourself at university and in your everyday student life. It is obvious to us that you may have a lot of questions that we are happy to answer.

How can we help you at the beginning?

We will give you the necessary information about how to get to WSB from your transfer point as quickly as possible.

- We will inform you about the provisions of the Polish law concerning, for example, legalization of your stay or health insurance.
- We will explain why you should open a bank account and choose a mobile operator. We will tell you where to go.
- We will tell you about our campus and the places in the city worth seeing. We will also explain how public transport works.

What can you expect from us?

- Adaptation days.
- A guide with the most important information.
- Intercultural workshops.

We understand that moving to Poland and starting a new environment can be challenging. If you have any questions or concerns, please contact our **Admissions Office**.

**The Admissions Office for Foreigners
and the English Language Studies**
tel: 71 376 23 68, +48 660 506 805,
+48 666 345 187 (in English)
e-mail: studyinenglish@wsb.wroclaw.pl

Take your first steps in your career with us

We focus on combining work and study and to gain experience while studying. Our **Careers Office** will be happy to help you choose your career path, enable you to do your internship, and help you find a job successfully.

If you need help with:

- organisation of internships
- organisation of national and international traineeships
- recruitment agencies
- participation in workshops and free training courses to improve qualifications and skills
- individual meetings with a career adviser, contact the **Careers Office!**

One of the prerequisites for getting a diploma involves doing professional and diploma internships. The Careers Office will help you to arrange them.

Scholarships, or how to reduce the cost of studying

You can get a scholarship for good academic performance and active involvement in university life.

- **The Rector's Scholarship** - awarded for good academic performance. Any undergraduate in the second year and a student in the first and second year of the Master's studies can apply for a scholarship. If you are in the third year of your Bachelor's or Engineering studies, this is only possible if you have a Polish Card or a permanent residence permit.
- **Sports scholarship** - after completing your first year of studies, you can also receive a scholarship from the Ministry of Science and Higher Education for good results in sports in international competition and for sports achievements and representing the colours of the university in the academic sports movement.
- **Ministry of Science and Higher Education Scholarship** - if you complete your first year of studies and have a high grade average, you can apply for a scholarship for learning outcomes from the Ministry of Science and Higher Education. To receive the Minister's scholarship for outstanding achievements, you must meet the criteria set by the Ministry.

If you have any questions about the criteria for granting the scholarship, please contact the Student Financial Services Department.

Student Financial Services Department

e-mail: stypendia@wsb.wroclaw.pl

Take advantage of the Erasmus+ programme and bet on an international career

We have a large international community, with young people from over 20 countries studying here. For 15 years we have been participating in the Erasmus Programme - we have signed 100 partnership agreements with universities from all over Europe, as well as partnership agreements from outside the EU, among others: Georgia, Ukraine and with universities in the United States and Mexico. Thanks to this, students can pursue their studies and internships abroad for a period ranging from 2 months up to even one year. Not only does it allow students to get to know the way businesses operate, improve their foreign language skills, but also to find themselves in an international environment.

If you want to study or train abroad, please contact the Centre for International Cooperation.

tel.: 71 356 16 16

e-mail: international@wsb.wroclaw.pl

Facebook: www.facebook.com/iWSB-International-WSB-137428489710322

Our Centre for International Cooperation launches many initiatives and events in which our students are willing to get involved.

Our initiatives:

- Erasmus+ studies and placements,
- Business Weeks abroad,
- Business Week in Wrocław,
- International Week,
- International Adaptation Days, International Christmas Dinner,
- Goodbye Erasmus Meeting,
- international conferences for organised international groups.

During the academic year, the Centre for International Cooperation also conducts: guest lectures in foreign languages, thematic meetings, conferences, weekly training trips and other such events.

Studies do not only involve lectures and exercises - they also include time for student life

—— **IWSB** - International WSB is a group of students who have experience in international exchanges, want to meet new people and help others to adapt in Poland. The group organizes international events, tourist trips and carries out scientific projects.

Follow us on Facebook to find out about the most important events and application dates for international programmes: www.facebook.com/IWSB-International-WSB-137428489710322

—— **University club AZS** - every student and employee may belong to the club. At the moment, the club offers sections: basketball and men's football and women's and men's volleyball, athletics and table tennis. Chancellor Dr Marek Natalli is the president of the club.

More information: www.azs.wroclaw.pl, www.azs.pl

—— **The Icebreaker Scientific Club** - is a group of enthusiasts who popularise knowledge in the field of logistics by organising interesting events addressed to high school graduates. The members of the club also prepare scientific articles, organise study visits and participate in conferences, training sessions and trade fairs.

Facebook: www.facebook.com/KnIcebreaker

Contact: kn.icebreaker@gmail.com

—— **The "Konark" Capital Markets Scientific Club** - brings together people interested in practical and theoretical issues related to investing in capital markets.

Facebook: www.facebook.com/Konark-WSB-1381715482072016

Contact: konark@wsb.wroclaw.pl

—— **KIWI (Key Visual Business and Research Group)** - the club works in cooperation with companies and industry institutions, organizes workshops (including: design thinking, 3D printing) and training in the use of graphic programs. The circle analyses marketing trends, activities and advertising campaigns of various firms.

Facebook: www.facebook.com/knKIWI

Contact: knkiwi.wsb.wroclaw@gmail.com

—— **SAP PORT Scientific Club** - members of the circle gain knowledge about handling various SAP modules in the area of logistics (MM, SD, PP, WM, QM), finance, controlling (FI, CO), new technologies (SAP S/4 HANA, SAP Fiori), programming (ABAP) and participate in certified training.

Contact: samorzad@wsb.wroclaw.pl

As a university we have a lot to offer and we support even the most crazy student initiatives. Our students spend their time actively - **sports activities, events, excursions, workshops and meetings with interesting people as part of the study circles**, these are just some of the attractions you can get involved in after class. If you have interesting ideas, like getting involved and want to influence the quality of your studies, join us. Already during your studies you can implement interesting projects and participate in initiatives that will help you develop your interests, make friends and acquire new skills and experience. We invite you to the following initiatives!

You will find more information on:

www.wsb.pl/english/wroclaw/student-zone/student-organizations

Which studies to choose?

Each of us has a different lifestyle and preferences. When it comes to studying, you also have the chance to choose the form that suits you best. Do you know the difference between full-time and part-time studies? How do you get a Bachelor's, Engineer's and Master's degree and how do they differ? You can find out about this in this section of the guide.

BA studies

- These are undergraduate studies with a Bachelor's degree, which is also recognised in other countries.
- This is the most popular type of higher education in the WSB.
- These studies last 6 semesters, or 3 years, during which you acquire practical knowledge and valuable professional experience.
- You can apply for jobs requiring higher education and then continue in Masters courses.

Remember that you must have a secondary education to start your studies.

MA studies

- You can enrol after getting your Bachelor's or Engineer's degree, also earned abroad.
- These studies last 4 semesters, or 2 years, and finish with a viva voce examination to earn a Master's degree.

Full-time studies

A different kind of full-time studies, an obvious choice for people applying for a visa in Poland. In full-time studies you will have classes from Monday to Friday. We try to arrange the timetables so that you can have all mandatory classes 3-4 days a week. This means that not only weekends, but even two weekdays are fully at your disposal. You can spend this time working, studying or relaxing.

Engineering studies

- These are undergraduate studies leading to an engineering degree.
- These studies last 7 semesters, i.e. 3.5 years, during which you acquire practical knowledge and professional experience.
- The programme's fields of study include knowledge of engineering and technical sciences.
- In your first year of study, you will broaden your knowledge in an additional mathematics repetition course, which we have prepared for the newcomers.
- You can apply for jobs that require a university or higher education in engineering, and continue your studies leading to a Master's degree.

Remember that you must have a secondary education to start your studies.

Part-time studies

If you choose a part-time study programme, your timetable will be organised on a weekend basis, on average once every fortnight. This means that you can devote your weekdays and every other weekend to your work and personal life. **The amount of material to be learned and the study programme do not differ in any way from the programme in part-time studies, the study is simply planned differently.**

Regardless of the form of study you choose, you can count on the support of student departments in English. You will also receive access to the individual student's record book Extranet and key messages in English.

Remember!

You can you get a student visa only if you are a full-time student.

Our programmes

Programme	Specialization
BA studies	
Management	Business Administration
Engineering studies	
Information Technology	Software Development
MA studies	
Management	International Management
Logistics	International Logistics

For more information and details, please visit our website:
www.wsb.pl/english/wroclaw

We appreciate our graduates

If you are a student from abroad, you are going to study at a higher education institution in English (excluding language studies) and you are a graduate of WSB University in Wrocław or in Opole (a branch of WSB University in Wrocław) you get a promotional offer for the admission fee, you are 100% exempt from the adaptation fee and you are entitled to a promotional offer for the tuition fee.

Engineer's degree

Information Technology

This is the course for those who:

- are up to date with new technologies in the IT field,
- like programming,
- have an analytical mind,
- want to work with modern tools and software.

Specialization:

Software Development
full time studies

Duration:

7 semesters

The IT industry is growing at a rapid pace. Due to the development of mobile technologies, network services and the expansion of multinational corporations, IT specialists find employment all over the world. In Wrocław alone there are several hundred local companies and many IT support centers, employing over 1200 IT specialists. As a programme manager I know very well what skills are needed in this industry and what specialists are valued by employers. I successfully run my own business. I also have many years of experience as a consultant for implementation and support of IT solutions in companies and a trainer of SAP and Comarch XL programs, as well as a consultant of SAP ERP and SAP S/4 HANA systems. Thanks to the fact that I know the IT sector well, I can co-create a modern curriculum with our partners - the leaders in this product and service market. Often these are the employees of IT companies who conduct classes and teach how to translate theory into practice.

Sebastian Sobczyk
IT Programme Manager, SAP consultant

Check what you get

- You have classes with IT specialists with many years of experience in companies such as: **Nokia, Atos, IBM, Microsoft, 3M Global Service Center, Gigaset, Hicron, DEVINITI (Intenso), Giant Lazer, BTech, Si-Consulting, GlobalLogic, T-Systems, Testuj.pl, Testarmy.com.** During the class you will use a laboratory equipped with Apple computers - iMAC and iPad Pro tablets, as well as laboratories: Stormshield Airbus Group safety laboratory, telecommunication technology laboratory - Lab powered by Nokia, Internet of Things (IoT) GlobalLogic, SAP Next Gen, Cisco, VMware vSphere and Virtual Reality laboratory (VR, AR, MR), where you will learn to design experiences and games.
- You can get the following certificates: **Configuring Advanced Windows Server 2012 Services, Microsoft Certified Solutions Associate Windows Server 2012, VMware vSphere: Install, Configure, Manage [v6.7], VMware Horizon 7: Install, Configure, Manage [V7.3], Microsoft Azure Fundamentals, international test certificate ISTQB Foundation Level, Java SE 8 Programmer, Unity Certified Developer, Cisco Certified Network Associate, Google Associate Android Developer, Atlassian: ACP-100**, as well as certificates of completion of Python and ABAP courses and SAP ERP and SAP S/4 HANA - SAP Next Gen.

Software Development

What will you learn by choosing this specialization?

- You will acquire programming skills in Java, JavaScript, Swift, Python, ABAP.
- You will learn to work with Atlassian systems: Jira, Bitbucket Server, Bamboo, Confluence and additions, eg Testflo.
- You will learn how to program applications, as well as object-oriented programming and programming of IoT devices.
- You will create graphics for computer games.
- You will learn how to program mobile applications according to Google and Apple.
- You will master IT industry vocabulary and learn to communicate freely in the international IT industry.
- You will learn how to test manually and automatically.

Additional information

The studies give a total of 210 ECTS credits. The ECTS programme aims to unify the way of studying in Europe and leads to full recognition of periods of study abroad and in Poland.

- As part of the curriculum you will have the opportunity to learn Business English in the form of language courses.
- You are required to undertake mandatory internships in the 6th and 7th semesters for 6 months. That is 832 hours of experience in your dream profession! You can contact the Career Office for help with student internships, which you will read about on the previous pages of this guide.
- At the end of your studies, you prepare an engineering project work under the supervision of a thesis advisor. The next step is to take a viva voce and a diploma exam in English.

Jobs for you:

Software Developer

Java Developer

IT Service Desk Specialist

IT Support Specialist

System Engineer

IT Systems Integrator

Software tester

I dream of becoming a programmer and that's why I study at WSB. Teachers at WSB University are collaborative and always pass on the latest knowledge from this field of study. In my opinion, the education at WSB is at the high level and I get a lot of practical information. What do I like about my studies? The atmosphere and the fact that I can meet multicultural students. I think that Poland is a nice place to live, I like to explore it, e.g. I went to the Tatra Mountains.

Meshack Alfred George
WSB University student

More information about the course may be found on:

www.wsb.pl/english/wroclaw/our-offer/bachelors-degree/programs/information-technology-software-development

Bachelor's degree

Management

This is the field of study for those who:

- have leadership skills and would like to become managers in the future,
- are interested in the mechanisms of management psychology,
- are good at organizing and planning,
- have the ability to think creatively.

Specialization:

Business Administration

full-time undergraduate studies

Duration:

6 semesters

Management is not only about the professional use of knowledge and skills acquired during studies. It is, above all, the professionalism of introducing changes in the managed company, the certainty of making strategic decisions and creating reality today and tomorrow. This is what distinguishes our graduates. Our studies are 3xP: practice, professionalism and passion. Study programmes are arranged according to market needs and in consultation with the Business Council. During the classes we use games and simulations, which already during the studies teach how to use the acquired knowledge. Knowledge is passed on by experienced employees from renowned companies, often members of the Business Council.

Agnieszka Dejnaka, PhD, DSc, Associate Professor (WSB University in Wrocław)
Management Programme Manager

Business Administration

What will you learn by choosing this specialization?

- You will learn the industry vocabulary (Business English) related to marketing, sales, management and business conversation.
- You will learn how to operate in an international business, finance and HR environment.
- You will learn how to manage international projects.
- You will learn the principles of communication and relationship maintenance in an intercultural work environment.
- You will take part in business simulations and case studies including the strategic game "Jarmark-Europe".

Check what you get

- You will acquire the knowledge and skills sought after on the labour market - we consult with business partners on an ongoing basis.
- You have the opportunity to visit reputable companies on so-called study visits, during which you will learn about the reality and working conditions in a given industry.
- You participate in internship classes, which include business coaches, HR and coaching specialists, business advisors, marketing and PR specialists, as well as supervisory board members. Apart from conducting classes, the employees of companies form a Business Council and have a real impact on the curriculum of the studies, so that it is best suited to the labour market.
- You can become a member of a thriving scientific club that explores issues related to management and marketing. Join the KIWI (Key Visual Business and Research Group).

Additional information

- The studies give a total of 180 ECTS credits. The ECTS programme aims to unify the way of studying in Europe and leads to full recognition of periods of study abroad and in Poland.
- As part of the curriculum you will have the opportunity to learn Business English, in the form of language courses.
- You are required to complete a 6-month internship in the last 2 semesters of full-time studies. You can apply to the Careers Office for assistance with student internships as described below in our newsletter.
- At the end of your studies, you will take a diploma examination.

Jobs for you:

An international marketing specialist

A coordinator of international projects

A consultant or specialist on foreign trade, imports and exports

A representative of international companies

An assistant in diplomatic institutions

My name is Gedion Moche Ayele I am from Ethiopia. I am here to study Business Administration at WSB University in Wrocław. A friend of mine recommended me Wrocław and apart from that I read a lot of information about Poland while choosing my future educational path. I gained a lot of information and help during applying for studies. It made the whole process clear and less stressful. My main reason for choosing WSB University was a field of study and possibility to gain knowledge needed for my future dream job – a manager working for an international corporation. I have already advised my friends to study at WSB University and we will meet together at the campus soon.

Gedion Moche Ayele
WSB University student

Master's degree

Management

This is the field of study for those who:

- would like to take on higher, managerial position,
- want to obtain a deeper understanding of business and leadership,
- are eager to start their own businesses,
- believe in building connections and network in a competitive business area.

Specialization:

International Management

full-time

part-time studies

Duration:

2 semesters

For several years now WSB in Wrocław has been offering English language programmes at Bachelor's, engineer's and Master's degrees. Year by year, we have observed increasing interest in these studies not only among Polish students but also among international ones. This ensures classes are truly international, and students have the opportunity not only to acquire knowledge from the lecturers, but also a unique opportunity to broaden their intercultural collaboration skills. Our lecturers are people with extensive experience not only academic but also practical.

Joanna Nogieć, PhD
Vice-Chancellor for the Department of Finance and Management

International Management

What will you learn by choosing this specialization?

- You will know how to analyse business phenomena in macroeconomic terms.
- You will get to know different management concepts.
- You will learn how to analyse figures in depth.
- You will learn how the key areas of an international company work.
- You will understand the importance of building and maintaining relationships.
- You will learn how to seek creative and customised solutions, especially in problematic situations.

Check what you get

- You participate in classes run by practitioners such as business trainers, HR and coaching specialists, business advisors, marketing and PR specialists, as well as supervisory board members.
- You will improve your proficiency in business English which is crucial in international cooperation.
- You have the opportunity to develop your managerial skills and, as a modern manager equipped with the right tools, to meet various challenges in the labour market.
- By studying in an international environment, surrounded by business practitioners, you will establish many contacts that may be useful in your future career.

Additional information

- The studies give a total of 100 ECTS credits. The ECTS programme aims to unify the way of studying in Europe and leads to full recognition of periods of study abroad and in Poland.
- As part of your full-time studies, you will complete a mandatory internship of 3 months throughout the course of your studies. That is 416 hours of experience in your dream profession! Student internships are a great opportunity to get valuable know-how in the industry and sometimes even find a job while you are studying. For help with student internships you can contact the Careers Office as we have already informed you in this guide.
- At the end of your studies you will write your Master's thesis under the supervision of a thesis advisor who will support you with his/her knowledge and experience in management. The next step towards higher education is to pass a diploma examination.

Jobs for you:

An international project manager

An international markets specialist

A specialist in international enterprises

A managing director

A director for the development of new markets

A strategy and development director

My country is Kenya and it is a country that has beautiful and exotic sceneries, rich in flavor cuisines but during my studies I enjoyed living in Poland. I would like to work for Google in the area of Product Marketing and I studied Management because in the future I would like to know how to manage my own company. I will progress with my education to the PhD level but in different parts of the world.

Donattela Mezereab
WSB University graduate

More relevant information can be found on:

www.wsb.pl/english/wroclaw/educational-offerings/masters-degree/programs/management-international-management

Master's degree

Logistics

This is the field of study for those who:

- are interested in a clearly defined discipline of study,
- want to acquire skills that will help them get sought-after jobs,
- would like to acquire the comprehensive knowledge of management, economics, commodity science and accounting.

Specialization:

International Logistics

full-time

part-time studies

Duration:

4 semesters

Check what you get

- You learn the software that is actually used in companies on everyday basis: SAP, MS Project, AdoScore, RFID.
- You have access to the VR laboratory where you will move to the virtual world of Risk management in supply chains, and Sales Team Management. As a result, you will be able to deepen your competences in a simulated environment.
- You will develop practical skills in the area of Lean management by engaging in the team roleplay and learning through experience. Gamification is the most effective form of learning through play at the managerial level.
- You can join the Talent Forge where we cooperate with the business and focus on the development of your soft skills.
- We will teach you how to be an effective leader and you will learn about the power of masterminding.

Logistics specialist is a sought-after profession – which means security when choosing career path after graduation. Logistics specialists are needed by transport companies, logistics centers, warehouses, online stores and production companies – to mention just a few selected areas from a wide range of career opportunities. The development of the e-commerce industry and globalization pose new challenges for companies that are already working in digital delivery chains. It is the international cooperation that allows you to achieve interesting work and promotion opportunities.

dr Anna Orzel
Logistics Studies Manager

Additional information

- The studies give you a total of 100 ECTS credits. The ECTS program unifies the way you study in Europe.
- As part of your studies, you will complete a 3-month internship in the company. It consists of 416 hours of experience in the profession, thanks to which you will be able to develop your practical skills. The internship is a great opportunity to find a job in international corporations already during your studies. Our Careers Office will help you prepare for such an internship.
- The studies end with the defence of the master thesis. You have got 3 semesters to prepare for it, and a supervisor will be appointed who will support you with his/her knowledge and experience. The final stage is passing the diploma examination.

International Logistics

What will you learn by choosing this specialization?

- Managing a digital supply chain.
- Using the lean management tools in the most effective way.
- The principles of planning and coordinating the supply network.
- The principles of co-operation based on cultural differences.
- Transport management based on sustainable development.
- You will develop analytical skills in the field of process design.

Jobs for you:

- Supply Chain Manager
- Purchasing manager
- Director, Supply Chain Management
- Logistics Analyst
- Logistics Coordinator
- Transport Planner
- Business Process Specialist
- Logistics Representative

www.wsb.pl/english/wroclaw/educational-offerings/masters-degree/programs/logistics-international-logistics

Convenient enrollment for studies – step by step

online

fast

handy

You can become a first-cycle student (undergraduate or engineering) at WSB University after graduating from high school and collecting your secondary school completion certificate. Remember that Poland has different modes of validation of high school certificates, depending on the country you graduated from. You can find needed information at the [link](#).

Remember to get a validation of your graduation certificate before leaving for Poland. It is a document that approves the education you have accomplished so far that allows you to enroll in studies in the country you have studied. You can find a template of such a certificate at the [link](#).

You can become a second-cycle (Master's) student at WSB University after completing your first-cycle studies and receiving your diploma. Still, WSB University may ask you to officially validate your international certificate in Poland. For this purpose, you should report to the National Agency for Academic Exchange (NAWA). You can find needed information at the [link](#).

1

Choose the field of study and form of study that you wish to study and go to online enrollment. Select **“Create an account”** in the upper right corner.

What can you gain:

- you will go through the entire recruitment process online;
- you provide documents and sign your student agreement from anywhere in the world via the Internet;
- you are up to date with the status of your recruitment process;
- you can pick up the interrupted process of completing the recruitment form at any time;

- you will receive the administrative decision on admission and the certificate of admission to study to apply for a visa faster.

Make sure you choose a field and form of study most suitable for you. **We have indicated the courses available in English the British flag.** Remember that you can get a visa only if you are a full-time student.

If you want to amend your study enrollment form, **do not fill out the form again.** All you have to do is contact the Admission Office.

2

Create a Candidate Account, where you will find all the necessary directions on successfully completing the recruitment process for your chosen field of study.

You will also find a list of all the necessary documents that must be provided to meet the recruitment requirements and become a WSB University student.

3

After creating an account and completing the recruitment form, you have 14 days to complete, deliver and sign the necessary documents. Only thanks to the **Candidate Account** can you do all this online, without leaving your home!

You don't have all the documents yet, but you want to be admitted to studies and apply for a visa? No worries! Just create an account, fill in the form and provide us with the documents you already have. Then arrange the details of how to proceed with the Admission Office.

4

After checking that we have all the necessary documents, we will inform you about your studies' admission.

If we notice that we are missing something, we will keep you informed.

5

That's it! You are a WSB student!
